

Artist Statement

I originally intended to develop a project with the people who live in El Bruc. However, after landing at the residency, I became completely fascinated by the vegetation on the grounds. I collected decaying figs, cottonwood seeds, cypress tree cones and other local plants and flowers.

I used paint to alter the things I found, and combined them with other materials to create jewelry, small sculptures, and investigative pieces.

Fig Wall, 2023, 61cm x 46cm x 2cm, mixed media

Fig and Flower necklace, 2023, 20cm x 12cm x 2cm, mixed media

Pods and Seeds, 2023, mixed media
